

Case Study

Lewis Southgate – Level 2 Plumbing Apprenticeship, employed at Progas Heating Services

What made you decide to do an apprenticeship?

“I wanted a job that was varied and didn’t require working in an office environment”

How did you find your employer and how did Bexley College help you?

“Bexley College helped find my employment at Progas, helped with the application and the interview”

How did you find coming to College and working with an employer at the same time?

“I am able learn more theory, which I probably wouldn’t gain just with the employer”

How has the knowledge and skills that you have learnt helped your employer?

“I have learnt to be punctual and am using the theory and communication skills that I’ve learned at college and using them at work”

When you finish your apprenticeship what do you hope to do?

“I plan to go onto the Gas course at Bexley College, and continue to work as Progas ”

Would you recommend an apprenticeship to other young people?

“Yes, apprenticeships allow you to learn a lot more about the trade and the theory behind it, and get paid whilst doing so”

What made you choose Bexley College as your education provider?

“I chose Bexley College as my education provider as it was local to me, which was important”
